

Rui Shujie, Carol Hunter and Tim Rouse
invite you to join us for

The Global Leadership Exchange

April 13-15, 2012 • Shanghai, PRC

Offered by FGISpirit

Program Content:

We are at a time in history when leaders from China, India, Russia, the United States and elsewhere must meet and learn together, face-to-face. The dynamics of the global economy demand a new level of understanding among leaders not found in books, online or nightly news. Join us to experience first hand.

Global Leadership Exchange (GLE), the three-day program, will blend information about the global economy, leadership and society with some theory. In addition to Rui, Carol and Tim, you can expect a number of experts from China, the US and other countries, who will share their expertise. The majority of time, however, will be you sharing your professional and other experiences with global participants.

Based on our experiences working with business leaders in China, India, Russia and the US, we know the participants will be seasoned professionals and leaders from successful businesses plus additional persons from academia, government and the not-for-profit sectors in their countries.

Fee:

The event fee is RMB3288 per person. This includes all program materials, continental breakfasts and lunch each of the three days, Friday evening dinner, plus morning and afternoon snacks. Individuals must handle their own transportation and hotel expenses.

Discounts are available for companies who wish to send 3 or more participants.

Where:

Regal Shanghai East Asia Hotel
800 Ling Ling Road, Xu Hui District, Shanghai, PRC

"I am able to understand different cultures deeply. I received a lot of positive information on leadership and increased friendship between the people of China, US and Russia."

Eric Wu

"The most positive learnings for me are that people from such different cultures can be so open and really come together."

SC Toh

*Managing Consultant
aAdvantage Consulting Group (China) Co, Ltd.*

"Everyone opened their hearts and I heard voices from their hearts. Though people came from different countries, we actually share the same wishes and values. Communication is the only way to make people from different worlds understand each other."

Serena Zhang
